

Departing from Cleveland Airspace:

Cleveland Hopkins has four Departure Procedures (DPs):

ALPHE THREE (RNAV) [North / Northwest]
AMRST THREE [West / Northwest]
OBRLN THREE [South / Southwest / West]
SANDUSKY THREE [North / Northwest]

Five preferred initial waypoints if NO DP is filed is not in your direction of flight.

- Sandusky VOR (SKY) [West / Northwest]
- Akron VOR (ACO) [East / Southeast]
- Mansfield VOR (MFD) [West / Northwest]
- FAILS intersection [East / Northeast]
- HERAK intersection [South / Southwest]

It is preferred that you have one of the above DP's or Initial waypoints as your initial fix. If you are unable please make that known to the Controller on initial contact.

One exception to the above is the route from KCLE to KDTW.
"DJB.GEMNI2" Max cruise for jets is 12,000', and 11,000' for turboprops (props with speed greater than 210kts),
